Idaho Capital Projects Fund – Broadband Grant Program

RE: Latah County APP-005924 Addresses with existing fiber service and that will be served in 12 months

Dear Ramon,

In response to the Idaho Broadband Capital Projects Fund – Broadband grant program challenge opportunity we reviewed all proposed projects that lie within the ZiPLY Fiber ILEC service exchange boundaries. As the ILEC in Latah County, we found currently served and addresses in the construction process within APP-005924 submitted by Latah County. Our concerns are:

- Under the Idaho CARES Act 2020 grant program ZiPLY Fiber was awarded funding through the City of Potlatch to construct fiber to public safety institutions and in 2021 we completed a Fiber to the premise construction project completing fiber access in Potlatch, Idaho with privately invested funds. ZiPLY Fiber also invested in bringing fiber to the Onaway community. The addresses within the City of Potlatch are reported to the Federal Communications Commission Broadband Data Collection as served Fiber to the Premise 5,000/5,000 Mbps. The availability of fiber enabled areas is publicly available at <https://ziplyfiber.com/new-fiber-locations>. The addresses proposed by Latah County were provided by the Idaho Broadband Office have been reviewed and 411 specific locations matched by ZiPLY Fiber as served are attached.
- The Latah County proposed last mile addresses in Genesee include 383 addresses in an active Fiber to the Premise construction blocks. Currently, the Genesee construction status is pending pole attachment permitting from AVSITA. Documentation of project progress is attached.

We reached out to Latah County with these concerns. Christina Mangiapani, Latah County phoned the morning of 7/28/23 to relay the county broadband coalition members from cities of Potlatch and Genesee are unwilling to remove these address locations from APP-005924. ZiPLY Fiber has and will continue making private investment to bring FttP in Latah County. We appreciate the opportunity to submit our concerns to the Idaho Broadband Office for consideration by the Idaho Broadband Advisory Board.

Sincerely,
